

*Camouflage Art -
Chameleon*

You need:

- 1.white drawing sheet A4 size
- 2.oil pastels
- 3.scissors
- 4.small pieces of foam
- 5.double sided tape

Draw shapes of your choice on the sheet.
Leave about 1 cm white between the shapes.
Colour them with three or four different
colours of oil pastels or wax crayons.

Draw a chameleon on another sheet and colour it the same way as the first sheet: coloured shapes with one cm white between them. Cut it out with a one cm white around it. Use small pieces of foam and double side tape to paste the chameleon on the background. The chameleon will be slightly higher.
