

Monday 8th June 2020

Hello 2E, I hope you've had a good week.

Did you take part in the special Young Voices singing event on Tuesday? Over 12400 people watched the youtube link and joined in performing 'Power in me'. I thought the warm up activities were very entertaining! It was great to sing along knowing that so many other people were doing the same thing at the same time, even though we couldn't all physically be together.

The 30 days of activities at @WildlifeTrusts are great. I have definitely found more time to appreciate being outdoors. I love that my daily background soundtrack has become birds singing rather than traffic driving by. Which daily challenges have you enjoyed?

This week I've been working with some children in Early Years at school. We are managing some learning but it's very tricky not being able to share resources and keeping apart from each other. It's not how we remember school being. It's still sad and difficult that we can't all be together in 2E but it's more important that we stay safe. Emailing photos and tweeting messages is a great way to keep in touch and see each other even if not in person. I wonder how many photos of children in year 2 you can spot this week?!

We hope you will be able to try some of the activities in this week's home learning. Let us know how you're getting on, or simply send a photos of your big smiling face at homelearning@st-edmunds.suffolk.sch.uk

I'm missing you all lots. Have a good week and stay safe.

Love from Miss Eden 😊
