

## Year 5 Autumn 1 - Creation

God has given us existence and at every moment He sustains and enables us to live and he will bring us to our end. We are dependent on Our Creator as a source of wisdom and freedom, joy and confidence. [CC301]

The children will:

- Know that there are scientific and a theological truths about the creation of the world
- Know that scientific knowledge does not contradict religious belief, but they support one another
- Know story of creation in the *Genesis*
- Know the story of the fall and understand that it helps us to understand suffering in the world
- Know that we are stewards of creations and that as Catholics it is our duty to protect and sustain the environment
- To know the stories about key figures that helped God and what we can learn from them
- To appreciate that they have been given gifts by God and consider how they can use them wisely

### Key Vocabulary

- Creation- Bringing something into existence
- Contradiction- Arguments that are opposed to one another
- Environment- The natural world
- Evolution -The process of change in all forms of life over generations
- Scientific- The study of a subject through systematic investigation and analysis
- Spiritual- Having a meaningful emotional relationship with God
- Stewards- Having responsibility
- Sustainable- ensuring an ecological balance by avoiding the depletion of natural resources
- Theological-The study of the nature of God and religious belief
